

## Emerging Technologies Workshop: Network Programmability with Cisco APIC-EM

The student has successfully achieved student level credential for completing Emerging Technologies Workshop: Network Programmability with Cisco APIC-EM course administered by the undersigned instructor. The student was able to proficiently:

- Explain the concept of APIs and the importance of RESTful APIs for software integration.
- Explain how network programmability enhances network management and automation.
- Interact with the Cisco APIC-EM network controller's management interface.
- Use Python to complete simple tasks with the Cisco APIC-EM APIs such as creating a network inventory and running a Path-Trace session.
